Immersing in Nature, Building a Healthier Wisconsin

At Access Ability Wisconsin (AAW), we are focused on creating opportunities for everyone to experience the healing power of nature. Access to the outdoors should not be limited by age, ability, or circumstance. Together, it's possible to make Wisconsin a place where every person - youth, veterans, individuals with disabilities, older adults, and families - can connect with the natural world as leaders and participants.

Thank
you!

Your dedication to our mission positively
impacts lives of Wisconsin families!

We passionately coordinated and attended 38 community engagements throughout the state this year including celebrating our 11th Anniversary! It was a beautiful Wisconsin autumn day for our "Outdoors Access 4 All!" Family Adventure Day at Blackhawk Lake Recreation Area in Highland. We had hiking, fishing, art in the pines, and adaptive kayaking stations. We had over 200 attendees, 50 volunteers, and 22 of the 34 fleet of chairs were being used! An eagle scout project was on display showcasing one of our trailers with solar panels. Thank you to everyone who volunteered and attended the event. If you missed this year's celebration, we hope you can join us next year!

Save the date - September 12, 2026, for our 12th Anniversary.

It is a great way to learn more about AAW, our equipment, meet the AAW Team, make new friends, and enjoy a day filled with fun activities.

⁰¹ Nature is the greatest place to heal and recharge. ⁰²
